

Ghost Hunting

Ever wonder what goes bump in the night?

Who would have thought that there are some haunted buildings right here in Exeter. Join us as we investigate the sounds and movements of the unknown and attempt to communicate with the dead. Constructed in 1890 to serve as an elementary school, the Exeter Parks and Recreation Department's office is the perfect site to investigate deep into the dark and haunted past of the building.

Don't worry though, we will not be alone. We will be guided by North East Paranormal Associates, a team of dedicated professionals who let the facts drive their conclusions. North East Paranormal Associates (NEPA) use a medium, as well as a variety of electro-magnetic, digital sound, heat and motion detection devices, video recorders, and several other devices. Some of their past investigations include: Bucco's Tavern, Kingston; Governor's Inn, Rochester; Hampstead Cemetery; Murkland Hall, UNH, and the Gonic Mills.
